JAPANESE ARMY IS AGAIN ADVANCING

Mikado's Men Getting Ready To Push The Fighting.

RUMORS OF PEACE STILL AFLOAT

President Roosevelt May Be Named as Mediator—Report Concerning Peace the Air Conflicting—Gen. Linevitch Reports Nothing Doing at the Front.

St. Petersburg, March 31.—12:35 p. m.—The news from the front today all agrees that Field Marshal Oyama has begun a genuine advance of his land army with wings far extended. Reconnaissances are being made by the Russian center with the object of developing the Russian position.

Peace Talk Quieted Down.

St. Petersburg, April 1.—The newspapers today are so significantly silent about peace reports abroad that it leads to the inference that they have been warned by the government of the inadvisability of airing their views at this time. Those papers which have been warned by the government of the inadvisability of airing their views at this time. Those papers which have been favoring peace say nothing while the small section of the press which has been insisting on a continuation of the war contents itself with the reproduction of articles from foreign newspapers showing that peace now means the abandonment for ever of Russia's position on the Pacific.

French Believed Situation Changed.

Paris, April 1.—Whatever hopefulness the peace situation may have had some days ago the situation has now completely changed and there is every prospect that the war will drag on again. Consequently dispatches appearing in America saying that Foreign Minister Delcasse and Dr. Motono, the Japanese minister to France have been conferring at the former's house relative to peace are inaccurate. The foregoing view of the situation is taken by the parties immediately concerned and it is asserted with the authority of the foreign office and the Japanese legation.

Roosevelt May Be Mediator.

New York, April 1.—Repeated announcements in regard to the proximity of peace are confirmed, it is said, in a dispatch from a Times correspondent at St. Petersburg, by information from what is called an unimpeachable source, showing that Russia and Japan have selected President Roosevelt as mediator, that negotiations are already in progress and that the suspension of hostilities shortly may be expected.

After detailing reports as to the negative conditions of peace laid down by Russia, and set forth recently in the dispatches to the Associated Press, the Times correspondent adds: The selection of President Roosevelt as mediator, which was due to Japanese initiative, is regarded here as evidence of excellent discrimination. The Japanese thereby secure a firm friend who at the same time will make it a point of honor to bring the negotiations to a successful close and who therefore, would not be likely to have accepted the difficult post of mediator of Japanese intended to present exorbitant demands.

General Linevitch Reports.

St. Petersburg, April 1.—A dispatch from General Linevitch dated March 30, says:

There is no change in the situation. The enemy is displaying activity outside of the railroad. Heavy snow fell during the night.

A telegram from Gunsu Pass says General Linevitch has forbidden the inhabitants of Harbin, with the exception of the women and children, to leave that place without special permits, fearing that the town may be despoiled of workmen.

Colliers Ordered to Hong Kong.

Port Louis, Island of Mauritius, April 1.—A report is current here to

the effect that the colliers accompanying the Russian squadron commanded by Admiral Rojestvensky were ordered to go to Hong Kong by way of Batavia Island of Java.

BANK FAILURE IN OHIO.

Citizens Savings Bank of Lorain, O., Goes to the Wall.

Lorain, O., April 1.—At the usual time for opening the doors of the Citizens savings bank today there were several hundred depositors on hand ready to draw out their money should the opportunity present itself. The crowd was made up for the most part of foreigners. Posted upon the door was a notice which read:

"This bank closed for business. The affairs of the bank have been placed in the hands of T. F. Fancher, as assignee. The Bank Directors of the Citizens Savings Bank."

There was no demonstration on the part of those gathered about the building. The capital of the bank was \$50,000; resources \$379,849. Individual deposits, \$313,949.

One of the defaulting employees was under a bond of \$20,000. It is understood that property to the value of probably \$10,000 will be turned over by the men responsible for the wrecking of the bank.

ROUGH RIDERS' REUNION.

San Antonio, Tex., Getting In Shape to Entertain Visitors.

San Antonio, Tex., April 1.—A rousing welcome will be given the Rough Riders at their reunion in this city April 6 and 7. The United States army has been in charge of the camp which will be in Riverside Park, the original rendezvous of the regiment. President Roosevelt has expressed a desire to see as many of his old comrades here as possible.

After a reception at the Grand Opera house the Rough Riders will mount bronchos and proceed to camp. Trolley rides and Mexican dinners are part of the program. On the second day the Rough Riders will be kept busy furnishing an escort to the president, receiving him at lunch and entertaining him in the afternoon.

The president will bid the regiment farewell on the night of the 7th.

FIREMEN MEET WITH ACCIDENTS

Fire Engine Collided with Street Car and Several Injured.

Chicago, April 1.—Five firemen have been injured and two fire engines disabled while responding to an alarm for a small fire in Market street.

A collision with a crowded electric car at Jackson boulevard and Clark street, the break down of another engine and an explosion in the building accounted for the men's injuries which consisted of broken legs, bruises and cuts.

All the windows of the electric car were shattered by the collision and a score of passengers became jammed in the doors in the rush for safety.

The wrath of the firemen was aroused by the collision and after assisting the injured men to a drug store they ran to the car and threatened the crew. The latter retreated, and while other street railway men stood guard, the car was hurried away.

Treasury Official Transferred.

Seattle, Wash., April 1.—Colonel E. Polk Johnson, special agent of the treasury department with offices in this city, has been transferred to the charge of the Twelfth special agency with headquarters at Cincinnati. He will leave for his new post tonight. Colonel Johnson was transferred to Seattle from the New Orleans district in February, 1904. He has been in the service nearly 12 years, and prior to coming here had served at Chicago, St. Louis, London, England, Texas and New Orleans.

Carnegie Gives University \$100,000.

New York, April 1.—At the annual gathering here last evening of the New Orleans Alumni association of Norwich university the state military college of Vermont, located at Northfield, it was announced by the president that Andrew Carnegie had announced his desire to contribute \$100,000 for a library for the university and \$25,000 for electrical equipment for the engineering department.

PRESIDENT CASTRO ASKS FOR JUSTICE

Says Venezuela Desires to Settle the Troubles Amicably.

QUOTES PRESIDENT ROOSEVELT.

Venezuela's Chief Executive Says He Has Faith in United States and Claims that the Affairs of that Country Have Been Unduly Paraded.

New York, April 1.—A desire for a peaceable adjustment of Venezuela's final troubles is reiterated by President Castro of that republic in an interview cabled by the Caracas correspondent of the Herald. President Castro is quoted as follows:

"I have seen from the first that no danger was likely to arise out of the affairs which have unduly occupied public attention. Aside from other reasons, Venezuela places complete confidence in the words of President Roosevelt, who said:

"America's attitude toward all nations should be one of cordial and sincere friendship. We should show strongly our desire for their good will by acting toward them in a spirit of just and generous recognition of all their rights. We wish peace but we wish the peace of justice, the peace of righteousness. No weak nation that acts rightly and justly should ever have cause to fear us."

"Venezuela's government asks no more than Mr. Roosevelt proclaims.

"We hold that the French cable case and the Bermuda case are identical. Neither company has fulfilled its contracts. Both have revolutionists here. Their cases were not submitted to the mixed commission, because they knew it was Venezuela which should have made claims instead of themselves. Their disposition then was to ignore Venezuela's rights.

"The cable company is fully aware that they favor the revolutionists. Original documents and proofs are in possession of this government. The company and many persons of the greatest importance were seriously involved. Time will reveal all."

President Castro declared that the asphalt company gave the revolutionists \$400 in one instance.

REAR ADMIRAL BARKER RETIRED

Distinguished American Naval Fighter Reaches the Age Limit.

Washington, April 1.—After long and distinguished services Rear Admiral A. S. Barker, commander in chief of the South Atlantic fleet, hauled down his flag today on the Kearsarge at Pensacola and was placed on the retired list of the navy.

In the war with Spain Admiral Barker was one of the most prominent members of the strategy board. He was later in command of the New York navy yard and from there in April 1903, was appointed to the supreme command of the North Atlantic fleet. Admiral Barker will make his home in Washington. He is a native of Massachusetts, whence he was appointed to the naval academy.

Rear Admiral Evans succeeds Admiral Barker in command of the fleet and has selected the Maine for his flag ship.

New York, April 1.—Dr. William Harper, president of the University of Chicago, who has been recuperating at Lakewood, N. Y., from the effects of an operation has surprised his physicians by so far recovering that he will be able to start for Chicago in a few days. Dr. Harper declares he feels strong and well again, and that the operation made a new man of him physically.

Farmers Held for Robbery.

Huntsville, Ala., April 1.—Two farmers, named Martin, were arrested near Kelley station today as the men who robbed the postoffice safe there Tuesday night. The men were tracked by bloodhounds from Decatur, the dogs following the trail 36 hours old to the home of the Martin brothers.

NEGRO ASSAULTS AGED WOMAN.

Lynching Probable Near Johnstown, Pa., by Man-Hunters.

Johnstown, Pa., April 1.—In her home, near Elton, and in the presence of a little adopted daughter, Mrs. Frank Roscoe, aged 62 years, was attacked by a negro, who left her unconscious. She was found by neighbors, summoned by the little girl.

The man had appeared and asked for food, which was given to him. Then finding no men about the place, he attacked her. The aged victim's condition is serious.

Poses organized to scour the country for the negro, and it is not believed he will escape. It is feared if he be caught there will be a lynching.

Steamer Beached at New Orleans.

New Orleans, April 1.—The Austrian steamer Arimatea, owned by G. L. Perina & Co., of Trieste, is beached high today near the Stuyvesant docks, with her stern sunk deep in the sand and tugs at her side. The vessel is filled with water and her valuable cargo of grain, cotton and miscellaneous freight is believed to have suffered heavy damage total as some of the freight. Arrangements are being made to open the hatches and determine whether there is any more fire in the hold. If there is not the pumping out of the vessel will begin at once. It is expected that she can be got safely off the river bank although she had a decided list today. The vessel is valued at \$100,000.

Jonesboro, Ga., April 1.—The negro boy, McCray, on trial for attacking Perry Lee Cooke, a 10-year-old white girl, was this afternoon convicted and sentenced to death. His alleged companion in the affair is now on trial.

MORGAN SMITH AND WIFE ARE ARRESTED

Wanted In Connection With Nan Patterson Trial.

CLAIM SMITH BOUGHT PISTOL

The Couple Was Arrested in Cincinnati and New York Officers Are Now Enroute to that City; Also Pawnbroker Who Sold Revolver.

New York, April 1.—The district attorney's office took prompt steps today to ascertain whether J. Morgan Smith, who, with his wife, Julia, was arrested in Cincinnati yesterday could be identified as the man who bought a revolver of Hyman Stern, the pawnbroker, on the night before Caesar Young was killed. Smith is the brother-in-law of Nan Patterson, the show girl accused and about to be tried again on the charge of killing Young.

An attempt was made at a previous trial of Miss Patterson to prove that Smith bought the revolver with which Young was killed, but the absence of Smith greatly hampered the effort of the prosecution in that respect. Stern started today for Cincinnati to see whether he could identify Smith as the purchaser of a revolver.

It will be the first opportunity the authorities have had to confront Smith with the pawnbroker.

Assistant District Attorney Garvan also left New York today for Ohio, it is stated that he will be present when Stern attempts to identify Smith. Later he is expected to go to Columbus to urge the extradition of both Smith and his wife.

The district attorney's office has been notified that Detective McNaught, of that office, has secured the requisition papers, from Governor Higgins, and has started for Cincinnati after Smith and his wife.

The indictment on which their return is required, charges conspiracy, and the papers accompanying Governor Higgins' request for their extradition from Ohio allege that they are fugitives from justice in this state.

The conspiracy with which Smith and his wife are charged is that with Nan Patterson they attempted to extort money from Young on the base of a false claim that she was about to become the mother of a child for which he would be responsible.

Assistant District Attorney Rand said today that when the Smiths left New York a few days after the arrest of Nan Patterson, they were met in Hoboken by J. Randolph Patterson, the father of the show girl, who brought a suit case filled with Smith's clothing. The Smiths, he said, then disappeared.

R. Tucker Lumber company, of Chicago, the F. H. Smith Lumber company, of St. Louis, and the Georgia O'Hara Lumber company, of Cairo, Ill.

The consolidated concern will operate over 30 saw mills in the south and owns more than 200,000 acres of hardwood land. Veneering and planing mills will be established in this city and export business carried on from New Orleans headquarters.

DR. C. B. STROUSE SUGGESTS NEW PLAN

Believes Carnegie Could be Induced to Support Seminary

WITH A FAT DONATION

The Famous Millionaire Has Declared Himself in Favor of Smaller Colleges, and Dr. Strouse Feels That Now is the Time to Strike.

If Gainesville ever had a friend of influence and power, that friend has been Dr. Clarence B. Strouse. It may seem a broad assertion, but if the reader should stop to consider, he will see that Dr. Strouse has accomplished more in the way of attracting visitors to the city, and in building up the city on a moral and religious standpoint, than any one man, and his efforts are appreciated.

It is a well known and undisputed fact that, had it not been for the hard, earnest and faithful efforts of this man of God, the magnificent tabernacle, one of the largest in the South, would not have graced our city with its presence, for it was through his efforts that this tabernacle and the Bible Conference, Christian Workers' Institute and Chautauqua were brought here. These attractions alone bring many here, and the number of visitors who come to spend the entire season increases every year.

Dr. Strouse Lays a Plan.

Dr. Strouse, among other things, is anxious to see East Florida Seminary the leading college in the State. He desires to see new and substantial buildings, such as will enable the people of Gainesville to invite the young men from the North, and from every other section, to come here to be educated. "From my wide circle of acquaintances there are a great many young men whom I think can be induced to come, if the accommodations can be made attractive.

"The faculty can hardly be improved upon, and I am of the opinion that President Pound has no peer as an educator in the South. He should by all means be kept at the head of the institution, as his system and his ability insures a bright future."

Dr. Strouse expresses the belief that Mr. Carnegie, who has lately come to realize the great value and importance and need of smaller colleges, could be induced to make a donation of from \$50,000 to \$75,000 toward East Florida Seminary, provided the trustees and others interested would lay the matter properly before him, and show their willingness by appropriating as large an amount as was asked from him. He expressed his willingness to call upon Mr. Carnegie in reference to this matter while in New York, if the citizens and those interested will put matters in tangible shape.

This is indeed a generous concession on the part of Dr. Strouse, and is deserving of immediate action.

Let the people come together and formulate some plan.

A FINE OPERATION.

After Suffering Several Weeks Prof. Fosskett Had Eye Removed.

After suffering intensely for several weeks from an eye which had been affected from cold contracted from a case of grippe, Prof. A. J. Fosskett, who is at the Odd Fellows' Sanitarium, underwent the operation of having the afflicted member, the sight of which had disappeared, removed Thursday. The operation was performed by Dr. J. Harrison Hodges, assisted by other physicians.

The diseased eye had really been weak and affected for several years, and had it not been removed would have resulted in blindness of the other. The patient bore the operation remarkably well, and the physician states that he will be enabled to come out in a few days.

Friends of Prof. Fosskett will be gratified at this information, as he has been a great sufferer.

Chamberlain's Cough Remedy the Best and Most Popular.

"Mothers buy it for croupy children, railroad men buy it for severe coughs and elderly people buy it for lagrippe," say Moore Bros., Eldon, Iowa. "We sell more of Chamberlain's Cough Remedy than any other kind. It seems to have taken the lead over several other good brands." There is no question but this medicine is the best that can be procured for coughs and colds, whether it be a child or an adult that is afflicted. It always cures and cures quickly. Sold by all druggists.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a Home of Swamp-Root, pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

FUNERAL OF DR. MATHESON.

Held From Presbyterian Church Thursday Afternoon.

The funeral of the late Dr. Benjamin Haile Matheson, the sad death of whom occurred Wednesday afternoon, was held from the First Presbyterian Church Thursday afternoon at 3 o'clock, Rev. Thos. P. Hay officiating. The church was crowded with relatives and friends of the deceased, who had congregated to pay their last respects and honor to their distinguished friend, whom they all loved.

Rev. Mr. Hay made some beautiful and impressive allusions to the brilliant life and noble character, hymns were sung, and, altogether the ceremony was a sad and impressive one.

The interment was in Evergreen cemetery, and a large number of friends accompanied the remains to their last resting-place, where the ceremonies were concluded.

The floral tributes by loving friends were as numerous as they were fragrant. Among the floral contributions were handsome flowers from J. J. Finley Chapter, also members of Kirby Smith Chapter, United Daughters of the Confederacy.

The Sun extends sympathy to the bereaved family.

Cheated Death.

Kidney trouble often ends fatally, but by choosing the right medicine E. H. Wolfe of Bear Grove, Iowa, cheated death. He says: "Two years ago I had kidney trouble, which caused me great pain, suffering and anxiety, but I took Electric Bitters, which effected a complete cure. I have also found them of great benefit in general debility and nerve trouble, and keep them constantly on hand, since, as I find they have no equal." All druggists guarantee them at 50c.

PROMINENT SETTLERS.

Famous Playwright and His Wife Will Reside Here Permanently.

A carload of furniture, the household goods of Mr. and Mrs. Roberts, has arrived from Chicago. These estimable people have decided to make their home here permanently, and it is rumored have purchased the Wells property in North Gainesville, and will extensively improve the same. Mr. Roberts is a playwright, being the author of several successful plays, among them "The White Slave," which has enjoyed such a successful run throughout the country. He is now at work on another play, which he proposes to present for the first time in the coming fall. The people of Gainesville will welcome this estimable and talented family, and trust they will be pleased here.

Stearns, Druggist, Shullsburg, Wis., writes May 20, 1904: "I have been selling Ballard's Horehound Syrup for two years, and have never had a preparation that has given better satisfaction. THE NEWS FROM ARNO.

Peach Industry Prospering—Notes of Interest to Readers of The Sun.

Arno, March 31—Your correspondent has been so busy putting his orchard in shape for the coming crop he has neglected to write.

The orchards here are not so full of peaches this year as they were last year, but the fruit will be much finer.

The season has been all that the farmers could wish, consequently they are well up with their work. Nearly all are done planting corn, and some of them through planting cotton. The cotton acreage has been increased.

Rev. R. J. P. Semmon, a minister of the Cumberland Presbyterian church, and a native of Indiana, after thoroughly investigating Arno and its surroundings, has bought a place for a home, and as soon as he can have a house built he will bring his family.

F. P. Henderson has quite a number of letters from Northern and Western people who want to come to Florida to live, and he expects quite a number of them to come this fall.

H. E. Taylor of Gainesville and Mr. Wells of Alachua were here looking at the orchards yesterday.

W. N. Granling of High Springs is a frequent visitor here. He is looking after the work on his orchard. Mr. Granling planted six acres more of peach trees this spring and has bought forty acres more to plant next year.

Mrs. Jackson and Mrs. Abbott spent the day with Mrs. F. P. Henderson yesterday.

Miss Pearl Osteen spent Saturday and Sunday with her parents.

Next Sunday is the regular preaching day at Forest Grove. Rev. Mr. Hartman will not be here, but sends a substitute.

GOOD BLOOD TELLS ITS OWN STORY

And tells it eloquently in the bright eye, the supple, elastic movement, the smooth, soft skin, glowing with health, a body sound and well, an active brain, good appetite and digestion, refreshing sleep, energy to perform the duties and capacity to enjoy the pleasures of life. The blood is the most vital part of the body; every organ, muscle, tissue, nerve, sinew and bone is dependent on it for nourishment and strength, and as it circulates through the system, pure and strong, it furnishes to these different parts all the healthful qualities nature intended. When, from any cause, the blood becomes impure or diseased, it tells a different story, quite as forceful in its way. Itching, burning skin diseases, muddy, sallow complexions, disfiguring sores, boils, carbuncles, etc., show the presence, in the blood, of some foreign matter or poison. Rheumatism, Catarrh, Contagious Blood Poison and Scrofula, are effects of a deeply poisoned blood circulation. These may either be inherited or acquired, but the seat of trouble is the same—the blood. S. S. S., a purely vegetable blood remedy, cleanses and purifies the circulation and makes it strong and clean. Under its purifying and tonic effects all poisons and impurities are expelled from the blood, the general health is built up, all disfiguring eruptions and blemishes disappear, the skin becomes soft and smooth and robust health blesses life. Rheumatism, Catarrh, Scrofula, Contagious Blood Poison and all diseases of the blood are cured by S. S. S. Book on the blood and any medical advice, free of charge. **THE SWIFT SPECIFIC CO., ATLANTA, GA.**

The Jamestown Exposition, at Jamestown, Va., May 13 to November 1, 1907, will be a naval and military display worth seeing, as President Roosevelt has invited the world to be present. The Russian fleet may be dug up in time to be there the latter part of January, but not earlier.

This is an age of advanced ideas as well as some very odd ones, and when Rev. Joseph Milburn of Chicago asserts that "the theater is a greater moral power than the pulpit," he is in advance of the majority of people in this country. The stage, even when viewed from the front, has some fierce elevator to present to the people, while behind the scenes it is not near so pleasing to the refined eye. There are many conscientious people on the stage, we know, but we don't know much about Chicago preachers behind the scenes.

Until the baseball season is fairly opened and ring contests are allowed to proceed unmolested in California, the various boards of strategy will discuss the war between Japan and Russia. Many able arguments have been advanced, and from second place the Japs have moved up to the top of the first column with a percentage of 1,000, and a fielding and batting average that looks as though they were pennant winners. One man who has watched the game ever since the opening has become thoroughly convinced that the Russians are "mighty poor in the field," but as runners they are first-class, although the Japs excel in stealing bases, and will win through the errors of the Russians.

We repeat, Japan has destroyed the Russian fleet, captured Port Arthur and practically driven Kuropatkin out of Manchuria. That is all that she set out to do. Why then has she not won her fight? The acquittal of Judge Benjamin S. Liddon of all the charges in the disbarment proceedings, while a complete vindication of the judge, will also be a rebuke to his traducers who, for personal spite, resorted to this method for revenge. Now comes the professor of an Eastern college and declares that the earth is becoming unsteady on its axis and that we need not be surprised at any wobbling effects. That's all right for a staid college professor to put up that sort of talk, but if the average man should go home about 2 a. m. and try to argue with his wife that his unsteady gait was due to the old world being off of its axis, he would be accused at once of being in the jungle where the frisky tiger abounds.

FLORIDA'S LIBEL LAWS.

The libel laws of this State are, to say the least, most peculiar, and those affecting newspapers should have the attention of the Legislature.

Under our laws at present, a publisher of a communication reflecting upon any person, though it be signed with the name of the author, and paid for as an advertisement, is held equally responsible with the author. So also is a job office that prints a libelous circular. No matter how innocent the publisher may be of improper motives, or how honestly he may believe the statements to be true, he is held as guilty as the author who wilfully and from pure malice defames the character of his fellow man.

It is seldom in this State that publishers are criminally prosecuted for libels published under such conditions, but they are frequently made the victims of annoying civil suits that are little less than highway robbery, usually instigated by some 2x4 lawyer with an itching palm and a desire to share in the spoils.

A committee from the State Press Association will wait upon the next session of the Legislature and endeavor to secure proper remedy.

WITH JAPAN.

No foreign war for years has excited so much interest and sympathy in the United States, and the whole civilized world for that matter, as the present conflict between Japan and Russia. And in nearly every civilized country, as well as some of the heathen lands, the preponderance of sympathy is with Japan. The principal reason for such sympathy is the fact that she is supposed to be the weaker nation, and the second reason is that Russia has always been a domineering and brutal autocracy, almost despised by those who love liberty. Even her own people, who do not know what liberty is, but would like to try it, hate the Czar and his council of intriguers.

To show the different feeling for the two powers, attention might be cited to the eagerness displayed in England and the United States in subscribing to the loan of \$300,000,000 that Japan secured a few days ago. Ten times the amount was offered in both countries, while the Russian loan went begging in France.

It may be wrong for neutral powers to interfere in such affairs, but as those who desired the Japanese bonds were made up of people who invested their own private funds, they have a perfect right to do as they wish in the matter, and as they believe Japan is fighting for the right, it is their privilege to invest their means where they see fit, whether it pleases the Bear or not.

In New York, Chicago and San Francisco there are men with money who stand ready to uphold the Japs and they are backed by the people.

UNIONS AS AMERICANIZERS.

Labor Commissioner Carroll D. Wright has been conducting investigations into the effect of labor unions on certain classes of immigrants, whom it is next to impossible to reach and uplift through ordinary channels, and finds that their efforts have been productive of beneficial results, says a report recently made.

Mr. Wright's research was conducted in the stock yards at Chicago, where the foreign element, largely Lithuanians, Slovaks and Russian Poles predominates. The clan spirit at first so much in evidence, he declares, is gradually eliminated by the unions, whose officers refuse to permit the recognition of racial lines, and who strive to break down the secretive traits of character instilled by life in a country where the term government conveys nothing but distrust and terror and teach the newcomer that he is a part of it. He is taught that he should not be satisfied with the standard of living to which he has been accustomed; that he should have better wages, better working conditions, better opportunities, better homes, better clothes, the aim being to inspire higher aims and broader views. Such a course naturally creates discontent, but this is justified by Mr. Wright, who points out that, whatever the union's motives for creating such a feeling, the fact that "it breeds discontent among immigrants—which is the first step towards their improvement and ultimate Americanization—renders the union so far a public benefactor."

The principal may be admirable, says one paper, but its application is often faulty, and frequently carried to an extreme that nullifies any merit it might possess under a more judicious exercise of such power.

MORE STOCK FOR SPRING PARK FARM

Another Carload of Registered Herefords Purchased.

THEY COME FROM TEXAS

Purchase Was Made From the Farm of Willie S. and J. B. Ikard, Henrietta, Who Own One of the Most Extensive Ranches in the South.

By the purchase of another carload, comprising seventeen head of fine registered Hereford cattle, the Spring Park Stock Farm Company has gone on record as being the most completely stocked farm of registered cattle in the Southeastern States.

N. A. Callison, manager of the immense estate of the Spring Park company, returned Friday from Henrietta, Texas, where he purchased from the farm of Willie S. and J. B. Ikard this car of selected Herefords, many of which have won first and second prizes at various stock fairs.

Mr. Callison left Gainesville about two weeks ago for the purpose of buying more cattle. He is a thorough business man, keeps well posted on the cattle market, and knows just where to get the proper kind. Being informed that there was a registered fat-stock fair at Fort Worth, Tex., he went directly to that city for the purpose of attending this show, and it was here he met Mr. Ikard, the largest breeder of Hereford cattle in the South. It was arranged at the close of the show that Mr. Callison should accompany him to the ranch at Henrietta, which is in extreme Northern Texas, near the Oklahoma line, and this resulted in the transaction which will bring to Florida a solid carload of the finest Herefords ever consigned at one time to any firm in the South.

This carload of stock, which left Henrietta Thursday, is expected to arrive in Gainesville via the Seaboard Air Line Tuesday. The cattle will be unloaded and driven direct to the farm at Bennington.

"I have seen lots of fine stock," remarked Mr. Callison, who was reared in Illinois, where a fine cow is nothing uncommon, "but in all my life I never saw such a display of fine cattle as was shown at the Fort Worth fair and upon the ranch of the Ikards. At the show I noticed one steer, the prize winner, which tipped the beam at 2400, and another two-year-old which weighed 1,835. There were numbers weighing from 1,000 to 1,200 pounds, and in all, in the display of several hundred cattle, it was the finest 'bunch' I have ever seen."

"The Ikard ranch is a beautiful estate, covering hundreds of acres. The firm makes a specialty of breeding Short Horns and Herefords, and are the most extensive ranchmen of this class of cattle in the South."

Mr. Callison states that the Spring Park Farm Company is through buying stock for the present. The company will now begin to raise cattle for the market, as the farm is thoroughly stocked with the finest money can buy. Alachua county should feel proud of such an institution, in which there is invested thousands of dollars.

A Prosperous Business.

Among the young men upon whom fortune and success has smiled in Gainesville is John Seagle, who conducts a furniture store in the Endel block, West Union street. It may be said with sincerity that no young man is more deserving, and no young man merits success more than Mr. Seagle.

Beginning business in a small way about a year ago, by strict attention to business and honest dealing with the public, Mr. Seagle's business has steadily grown, and every day finds this young man upon a firmer commercial footing. Buying furniture in large lots, he enjoys the benefit of a discount, and gives to the customer this benefit. His prices are very reasonable, and there is no excuse for those needing furniture to deprive themselves, for an installment, as well as a cash business, is transacted here. Customers who buy on the installment plan pay the same price as if they were fortunate enough to pay cash, and all dealings with this house will prove highly satisfactory.

Real Estate Deal.

It is understood that Dr. R. A. Lancaster has sold to W. K. Thomas Real Estate Company a tract of 330 acres of unimproved land just west of the city, bordering the city limits. The land in question embodies what is known as the Green Sink section, and is timbered and fertile.

MUNICIPAL COURT.

Mayor Set Mill to Grinding to Defendants' Sorrow.

His Honor Mayor Thomas tendered a municipal reception Friday morning, when two colored boys, Holly Williams and Butch Tisby, were arraigned upon a charge of fighting.

It appears that on Thursday evening there was being held a colored church festival in a little hall in Porter's quarter, Southwest Gainesville. Everything was working nicely, and the maidens were enjoying the hospitality of their male escorts, until an altercation occurred between Williams and Tisby, the latter appearing to be the aggressor.

"I ain't right! I ain't right!" suddenly and boisterously exclaimed Butch, as he dashed into the room and advanced to the table where Williams was enjoying the association of an unbleached maiden and a teacup full of ice cream.

"What you mean you ain't right, nigger?" remarked Williams.

"Well, I jes tells yer I ain't right, an' I wants yer ter understand dat," was the response.

"Well, you can't cum round' heah 'eatin' dese ladies, so I'll git yer right," was the startling explanation of Mistah Williams, with an uplifted chair in his hands.

The guests interfered, and there was no damage. So ended the first chapter.

The second chapter is more important from a financial standpoint, since both men were arrested and arraigned before the mayor, who fined them according to the gravity of their offense.

"As the court sees this case, Tisby went to the festival and started the row, and Williams, with that commendable desire to uphold the dignity of the women and the respect of his race, resented, in the name of his race, the intrusion," remarked His Honor. "With this instinct before me, I will fine Williams only \$1 and costs, while Butch must shell out \$10 and costs, or exercise his muscle on the streets for the next ten days." The fines were paid.

A JOLLY CROWD.

East Florida Seminary Students Spend Day in the Woods.

A jolly crowd of young gentlemen and ladies, students of East Florida Seminary, participated in a picnic and outing in the woods Saturday.

The objective point was that romantic spot, the Devil's Millhopper. The wagons left the barracks about 8:30, arriving at destination about 10 o'clock, hence the young folks had several hours' recreation in the woods, which it is said are very inspiring at this season of the year.

The party returned late in the afternoon a tired but happy lot, feeling well repaid for their time.

There is no war in Gainesville. We are all united in pushing the city in all legitimate ways.

SILVER CONCERT.

A Success in Point of Merit and Attendance—Dainty Refreshments.

The musical and literary entertainment at the parsonage, Friday evening, by the Baptist Young People's Union, was a very enjoyable occasion, every number being presented in a highly creditable manner. Following is the program as rendered:

Chorus, "Gypsies' Song"—Misses Annie Wimberly, Beatrice Avery, Susie Simpson, Julia Bunch, Messrs. J. F. Bunch and J. P. Lovelace.

Piano solo, "Her Bright Smile Haunts Me Still"—Miss Lera Bennett. Recitation, "A Christmas Conversion"—Miss Julia Wainwright.

Soprano solo, "Back to Mother and the Old Home"—Miss Annie Wimberly.

Mandolin and piano selection, "Simple Confession"—Misses Steekert.

Recitation, "Easter Morning"—Miss Avie Walker.

Chorus, "Where the Southern Roses Grow"—Misses Maud Fielding, Mabel Avers, Jessie Wimberly; Messrs. Fletcher Cromwell and Luther Holloway.

Instrumental duet, "The Hunting Song"—Misses Wainwright and Walker.

Vocal solo, "My Heart is Singing"—Miss Gertrude Neuber.

Mandolin and piano selection, "San Toy"—Misses Steekert.

Recitation, "Courtship on the Phone"—Miss Julia Bunch.

Instrumental duet, "Galop Brillante"—Misses Wimberly.

At the conclusion of the beautiful exercises the company indulged in delicious ice cream and cake and the merriment was kept up until a late hour.

Rev. and Mrs. Rogers are most delightful entertainers, and although the cozy home was well filled, all seemed to enjoy the social as well as other portions of the evening's festal occasion.

The first number of The Florida State College Bulletin is at hand, with the announcement that it will in future be published quarterly by the Florida State College at Tallahassee. Its aim is to inform patrons, alumni and other friends more fully of the plans and purposes, the progress and growth of the institution. The next issue, the catalogue number, will appear the last of May. The work of the college in the past has been flattering and its students are steadily increasing in number. The people of the State should at all times favor their own educational institutions, and especially when graduates have shown as high a degree of learning as those from other colleges and universities.

Important Meeting.

A citizen's meeting will be held at the court house Tuesday evening at 7:30 o'clock, at which the committee appointed on the new charter will make its report. A full attendance is earnestly desired.

ALACHUA'S ICE PLANT WILL SOON BE READY

Will be a Modern, Up-to-Date
Factory in Every Way.

WILL INSTALL WATERWORKS

Contract Has Been Let For Boring of
Wells, and the People of Thriving
Alachua Will Enjoy Advantages of
Waterworks.

The thriving town of Alachua will soon have one of the largest and most modern ice plants in the State, the property of the Diamond Ice Company of this city. The capacity of the plant will be fifteen tons per day, and the most modern machinery, the product of the Columbus Iron Works, Columbus, Ga., will be used in the manufacture of ice.

Manager R. B. Livingston of the Gainesville plant, and who is also a stockholder in the Diamond Ice Company, stated Friday that the building to be occupied by the Alachua plant was being rapidly but substantially constructed. The first carload of machinery has already arrived, and will be installed as soon as possible. Other machinery is expected daily, and it is expected that the new plant will be in operation not later than May 5.

The Diamond Ice Company does not intend to get a cinch on the town of Alachua for the manufacture of ice alone, but proposes to install a waterworks plant. A contract has been let for the boring of an eight-inch artesian well, which will abundantly supply the town with artesian water, and at the same time afford fire protection, which will naturally result in a big decrease in insurance rates. The waterworks system will prove a great convenience, and to a large extent decrease the use of surface water.

Manager Livingston feels sure that the ice factory will be a paying investment from the beginning. Alachua,

EN PASSANTE.

Items That Come to the Notice of the
Casual Observer.

"If you would have a city that people would admire, keep it clean," said an old timer, "and don't let the rubbish accumulate on the street. Keep the sidewalks tidy, and for the sake of the ladies don't spit on the sidewalk. I saw two men talking on the street, and one of them was chewing between every sentence, and at the end of every paragraph he would spit on the sidewalk. In a few moments he had a filthy pool in front of him. Shortly after a lady came along wearing a white dress, and as there was no ferry she was compelled to wade through. It was enough to shame a man to look at the walk, but it is only one of a dozen of such scenes that come to notice every week."

"There is a man in this city that has an eye to business," said Cinders a few days ago. "He has a little daughter that he loves as dearly as anyone does their first-born, and, like many other fond parents, he has a little bank in which the infant drops all the pennies given her. A gentleman, who is very fond of children, would give the little one all the odd coppers he came in possession of, but they were not so many. The father apparently noticed this, and in order to supply the gentlemen with pennies would bring a couple of cents and buy a two-cent stamp of him whenever he thought the red money for the child's bank in the gentleman's pocket was low. That might be called 'friend-zied finance.'"

"A fellow was out admiring the city, apparently," said Cinders to The Sun, "a few Sundays ago, when he met a man, and inquired in regard to the sidewalks. 'How far are the sidewalks good out this way?' he said. 'Not very far,' was the reply. 'I am just walking for the sake of walking, and I want to keep going until I get tired so I can go to bed and sleep sound. I have been down the East Coast where the rates have a tendency to keep you awake and play on your nervous system. If I get good and tired I can rest harder.' 'Well,' replied the Cracker, 'if you want to get good and tired, strike out into that sand road and you will soon want to seek your downy couch.'"

Hotel Improvements.

Among other improvements contemplated for Alachua, and upon which work will soon begin, is the complete renovation, repairing, repainting and repapering of the hotel, which is now owned and operated under the management of Mr. Powell.

William Coldham of this city has secured the contract for the inside work, and he states that the same provides for first-class material in every way. This hotel, which was known as the Sheffield House for many years, enjoys the reputation of being one of the best country hostleries in the State, and now, since it is to be improved, the place will likely become all the more popular.

M. W. of W. at Rochelle.

There was instituted at Rochelle Friday evening a lodge of the Modern Workmen of the World, of which W. E. Crozier is organizer. A team from the Micanopy lodge were on hand and performed the work, which is an assurance that it was properly done, since the Micanopy lodge enjoys the reputation of having one of the best working teams in this section. Rochelle lodge starts out with a good membership, and the prospects are that it will be a strong and influential one.

ALACHUA'S ICE PLANT WILL SOON BE READY

Will be a Modern, Up-to-Date
Factory in Every Way.

WILL INSTALL WATERWORKS

Contract Has Been Let For Boring of
Wells, and the People of Thriving
Alachua Will Enjoy Advantages of
Waterworks.

The thriving town of Alachua will soon have one of the largest and most modern ice plants in the State, the property of the Diamond Ice Company of this city. The capacity of the plant will be fifteen tons per day, and the most modern machinery, the product of the Columbus Iron Works, Columbus, Ga., will be used in the manufacture of ice.

Manager R. B. Livingston of the Gainesville plant, and who is also a stockholder in the Diamond Ice Company, stated Friday that the building to be occupied by the Alachua plant was being rapidly but substantially constructed. The first carload of machinery has already arrived, and will be installed as soon as possible. Other machinery is expected daily, and it is expected that the new plant will be in operation not later than May 5.

The Diamond Ice Company does not intend to get a cinch on the town of Alachua for the manufacture of ice alone, but proposes to install a waterworks plant. A contract has been let for the boring of an eight-inch artesian well, which will abundantly supply the town with artesian water, and at the same time afford fire protection, which will naturally result in a big decrease in insurance rates. The waterworks system will prove a great convenience, and to a large extent decrease the use of surface water.

Manager Livingston feels sure that the ice factory will be a paying investment from the beginning. Alachua,

Items That Come to the Notice of the
Casual Observer.

"If you would have a city that people would admire, keep it clean," said an old timer, "and don't let the rubbish accumulate on the street. Keep the sidewalks tidy, and for the sake of the ladies don't spit on the sidewalk. I saw two men talking on the street, and one of them was chewing between every sentence, and at the end of every paragraph he would spit on the sidewalk. In a few moments he had a filthy pool in front of him. Shortly after a lady came along wearing a white dress, and as there was no ferry she was compelled to wade through. It was enough to shame a man to look at the walk, but it is only one of a dozen of such scenes that come to notice every week."

"There is a man in this city that has an eye to business," said Cinders a few days ago. "He has a little daughter that he loves as dearly as anyone does their first-born, and, like many other fond parents, he has a little bank in which the infant drops all the pennies given her. A gentleman, who is very fond of children, would give the little one all the odd coppers he came in possession of, but they were not so many. The father apparently noticed this, and in order to supply the gentlemen with pennies would bring a couple of cents and buy a two-cent stamp of him whenever he thought the red money for the child's bank in the gentleman's pocket was low. That might be called 'friend-zied finance.'"

"A fellow was out admiring the city, apparently," said Cinders to The Sun, "a few Sundays ago, when he met a man, and inquired in regard to the sidewalks. 'How far are the sidewalks good out this way?' he said. 'Not very far,' was the reply. 'I am just walking for the sake of walking, and I want to keep going until I get tired so I can go to bed and sleep sound. I have been down the East Coast where the rates have a tendency to keep you awake and play on your nervous system. If I get good and tired I can rest harder.' 'Well,' replied the Cracker, 'if you want to get good and tired, strike out into that sand road and you will soon want to seek your downy couch.'"

Stevenson, Ala., June 8, 1901.

Dr. E. W. Hall, St. Louis: Dear Sir—I have been a great sufferer from bladder trouble for two years and my case was of a very serious nature, compelling me to have several painful and dangerous operations. I have also taken many different remedies. I took Swamp Root for three years and Warner's Safe Cure two years and they only gave temporary relief. After having two operations and preparing for the third, I saw your Texas Wonder advertised and purchased a bottle. I got almost immediate relief and have continued to improve ever since. My doctors said my bladder had grown together in three places, and I was suffering almost death. No man living can say more than I can say for your Texas Wonder, and I call it a world's wonder, and I hope all who suffer will give it a trial. Wishing you success, I am Yours truly, W. O. DANIEL.

A TEXAS WONDER.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of \$1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. Ernest W. Hall, sole manufacturer, P. O. box 625, St. Louis, Mo. Send for testimonials. Sold by all druggists.
